How many heart wrenching stories have we all heard...defenseless animals subjected to heinous acts of cruelty and neglect? The animal rescue community responds to those they can but often cannot take on the large veterinary expenses. Unfortunately, animals remain the ultimate victims of inadequate laws and insufficient funds to protect them.

Phoenix Animal Care Coalition (PACC911) has developed two unique programs...creating small miracles every day. With your help, we can continue this life-saving work.

In 2004, **PACC911** established the **Emergency Medical Fund (EMF)** to assist our 125 partner groups with veterinary expenses. Our partners apply for the fund each year, receiving allocations determined by the solvency of the fund. **In 2012, approximately \$97,000 was paid to 77 partner groups!** Since its inception, the EMF has raised and distributed over \$500,000...creating small miracles and giving countless animals a second chance at life.

Now a **second program** has been developed for those extreme cruelty and neglect cases which require more funds than allocated by the EMF. This special fund is the **PACC911 Lulu's Angel Fund (LAF)**.

With larger expenses due to the seriousness of the cases, we initially chose four recipients--**Jack, Angel, Chuka-Tu** and **Juno**. These animals were either so emaciated that they could not stand or were deprived of food and water for extended periods of time. One was thrown from a moving car and another had seriously infected wounds, left untreated and festering. These languishing, suffering animals were all **saved** by the newly created LAF! Because of additional donations by generous supporters like you, we were ultimately able to save 13 animals in 2012!

WE NEED YOUR HELP to keep these programs solvent and to continue this lifesaving work. Your gift will ensure special care and a new leash on life for many abused and neglected animals.

Please make your kindest donation to **PACC911** today so we can continue to be a source of hope to the animals of our community. **One donation helps them all!**

Sincerely,

Bari Mears
President/Founder

2012 LAF RECIPIENTS

JACK

Starved and neglected when found, then deemed "dog aggressive", Jack languished at Animal Care and Control, declining every day. With the help of Valley of the Sun Dog Rescue

and the Lulu's Angel Fund, Jack received the food and medical treatment he needed to transform him from a frightened, emaciated boy into a happy, healthy animal who is loving life in his new forever home!

ANGEL

Found in Winslow, AZ by local authorities, Angel, a victim of severe starvation, weighed only 24 pounds and was unable to lift her head. Taken in by Pet Allies, she

was shown true love and affection for the first time in her life and she blossomed as a result. Thanks to Pet Allies and Lulu's Fund, within weeks, Angel was ready for her forever home; one that would

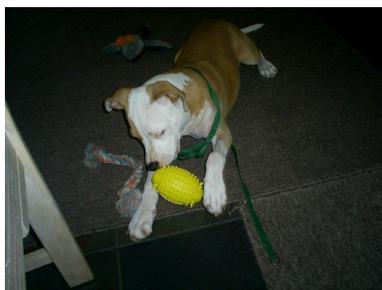

permanently erase the memory of the cruelty she experienced so early in life.

JUNO

Thrown from a fast-moving vehicle, Juno suffered broken elbows, road rash and a hole on the side of her body. Just hours from euthanasia, Helping Orphaned Hounds appealed to LAF for help. Treatment included the insertion of screws and washers and weeks in casts. Despite such horrendous

treatment at the hands of her former owners, Juno was a "love bug" who stole the hearts of her caregivers. After a long recovery, Juno was ready for a new forever home where she would receive the love she deserved.

CHUKA-TU

Taken in as a stray by local authorities, Chuka-Tu was immediately placed on the euthanasia list due to a massive facial tumor that prevented her from eating and difficulty walking. Enter 2nd Chance Rescue and LAF! Successful removal of the tumor and overdue TLC gave Chuka-Tu the second chance she deserved. Her canine roommates in her new forever home

welcomed her with open "paws" even sharing their favorite toys with the "newbie".
